RAE ROCKETFELLER

AGE: 9 **HEIGHT:** 4' 1"

WEIGHT: 65 lbs

EYES: Green **HAIR:** Brown

FIRST APPEARANCE: GHOST MACHINE #1 (2024)

HISTORY: An inquisitive and precocious girl, Rae may be the youngest Rocketfeller, but channels her genetic brilliance through her imaginative drawings. Her love of illustration and painting was nurtured by her Aunt Raina, who she connected with on a deeply emotional level.

Rae's art has an odd mix of imagery that has happened to her in the past, and also events that could happen in the future.

With both of her parents exceptionally busy, growing up, Rae spent a lot of time in the company of her grandmother, Rose, a retired medical doctor. Though a child of the future where life and technology have become somewhat symbiotic, Rose taught her to have a love for nature and all the species that inhabit it. Thanks to her grandmother's tutelage, Rae understands life's natural cycle and—in light of Rose's untimely death—has begun to ask the hard questions about her own mortality.

Of all the Rocketfeller family, Rae has adjusted well to the "ancient" 21st century, loving the real food they get to eat—not supplement tablets—and being able to explore wild forests with no technological interference.

ABILITIES: While Rae sees the world with bright, shining eyes, she also happens to glimpse into the future when she least expects it and has a tremendous empathy for creatures of all kinds, especially the birds she rescued. ●
